SUMMARY

I am a Software Engineering student with a strong foundation in web development, proficient in HTML, CSS, JavaScript, Node.js, and MySQL. I am passionate about building responsive and user-friendly web applications. I am continuously eager to learn and contribute to real-world projects in a collaborative environment, seeking opportunities such as internships to enhance my skills.

EDUCATION

Bachelors of Software Engineering	Islamabad, Pakistan
National University of Sciences and Technology Islamabad	08/2023 - 06/2027
Intermediate in Computer Science (ICS)	Kallar Kahar, Pakistan
Fauji Foundation College, Kallar Kahar, Chakwal	08/2021 - 06/2023

SKILLS

Java, C/C++, HTML, Python, CSS, DSA, Java Swing, Git, GitHub, OOP Principles, JavaScript, Node.js, SQL
Team Work, Adaptability, Resilience, Communication

EXPERIENCE

- ✓ Web Developer Intern at Innovative Technologies, Pakistan
- ✓ Volunteer at Al-khidmat Foundation
- ✓ Participation in Hackathon of Soft fest Held in NUML Islamabad
- ✓ Participation in Techfest held in Air University Islamabad
- ✓ Team Head of OC for DEVCON held in NUST (MCS) Rawalpindi
- ✓ Marketing Team Member of DEVCON for PIEAS and Bahria University
- ✓ Attending workshops on AI/ML Learning, Resume Building, Free Lancing

PERSONEL PROJECTS

Movie Searching Website

- Developed a comprehensive web app for movie searching using JS, HTML, CSS, and MySQL providing detailed movie info
- Implemented robust search filters and rating distribution visualizations with responsive design

Hospital Management System

- Created a Hospital Management System using Java Swing, implementing OOP concepts
- Enabled functionalities for adding/removing patients, managing hospital staff, and handling inventory

Age Calculator App

- Developed an Age Calculator app using HTML, CSS, and JavaScript, providing basic age calculations
- Gained hands-on experience in structuring HTML and styling with CSS

QR Code Generator APP

- Created a web-based QR Code Generator using HTML, CSS, and JavaScript integrated with an API
- Acquired experience in front-end technologies and API integration

Snake Game

- Developed a classic Snake Game using Java Swing, employing OOP principles for game mechanics
- Initiated my journey in game development, inspired to explore further advancements

Online Designing Tool

- Designed an online designing tool using Canva as my semester project of Software Designing
- Gained experience in designing and knowledge of design architectures and patterns and tools for designing
